Managed CSPM

Delivery

The first step is to understand the specific needs of the organization. This involves evaluating the current Cloud, Multi-Cloud and CSPM requirements, identifying pain points, and determining the organization's goals and budget.

Our team will then work with you to configure and maintain your CSPM platforms to ensure they are functioning effectively and securely.

Manage Posture Everywhere Across Multi-Cloud Environments

Managed Services can easily watch over the security and compliance of customer's public cloud environments at any scale across Amazon Web Services (AWS), Microsoft Azure, Google Cloud Platform (GCP), Alibaba Cloud and Kubernetes with CSPM Platforms.

Gain Visibility Across Your Entire Cloud Infrastructure

More than just a monitoring solution, CSPM platforms powerful network and asset visualization, including network topology and firewalls, allow organizations to discover any vulnerabilities, compromised workloads.

Achieve & Maintain Compliance

Managed CSPM platforms such as CloudGuard CSPM offers the most comprehensive compliance management and contextual cloud security across 70+ cloud-native services that include out-of-the-box compliance and best practice rulesets.
